BG Triples Building

BELLE GLADE — Building in Belle Glade the first five months of this year was nearly triple that of the equivalent period of 1954, City Inspector W. L. Cunningham reported this week.

Total permits thus far this year totalled \$559,835 as of May 31, or \$353,065 more than the \$206,770 of the Jan.-May period last year, Cunningham said.

The inspector's month-end report for May showed 36 new buildings in progress in Belle Glade.

Largest single item of the permits issued was to Mrs. Dolly Rutledge Hand for \$45,000 for construction of her new hotel now going up on S. Main St. Next largest was \$36,000 for business and apartment building to Glades Roofing Co.

Other permits issued, Cunningham reported were: five new homes, total \$43,000; two duplexes, total \$23,000; store building, \$5,000; four additions, \$2,225; 12 repair, \$5,550; 12 TV antennae, \$1,635; rooming house plumbing, \$3,665; 11 electrical, \$3,650.

Twister Slashes Corn Near S. Bay

SOUTH BAY — A freak and fortunately miniature "twister" hit south of South Bay Sunday on Okeelanta Sugar property leased by C. A. Thomas and levelled a three-city-block long swath through a cornfield.

The 150-yard wide path was cut down during the freak tornado accompanied by heavy rain. Witnesses reported that there actually were two twisters which joined about 4:30 p.m. and whirled around for about 15 minutes, finally disappearing in a trail of dust despite the rain.

At South Bay, all activity stopped while the twister was ravaging the property off U. S. 27. A number of people hurried to the park to bring their children home lest the twister would head into town.

BASEBALL BENEFIT BARBECUE TONIGHT

We will welcome the comments of our readers, and guarantee to continue to use all of the Glades news and just as many pictures as we can wring out of the summer doldrums.

WASHINGTON NEWSLETTER

By Sen. George Smathers
WASHINGTON—Richard A. Mack, formerly of Miami and Tampa (now of Tallahassee), has been appointed to the Federal Communications Commission to fill the vacancy earmarked for a Democrat. Senator Holland and I recommended Richie for this position, and we are pleased that the President has now appointed him. Richie and his wife Susan are long-time friends of mine, and I know him to be a loyal Democrat, a capable, efficient person, well qualified by his service on the Florida Railroad and Utilities Commission for this job. It will be helpful to all of Florida to have him on this highly important Commission.

ROAD BILL PROGRESS:
After a rather lengthy and at times bitter debate, the Senate passed a bill authorizing \$12 and a half billion in federal funds for highway construction. The bill which finally passed was a version of the so-called Gore Bill, or the Democrats' bill.

Try it today. Order it
at your favorite bar.

BLENDED WHISKEY, 86 PROOF,
65% GRAIN NEUTRAL SPIRITS—
SCHENLEY DISTILLERS CO., N.Y.C.

When the Republicans offered the Eisenhower highway program, it was defeated by a sizeable vote. Even many Republicans joined the Democrats on this measure after Senator Byrd of Virginia pointed out that its financing was unsound, that it ultimately would cost the taxpayers about \$1.35 for each dollar's worth of roads—\$3.50 being used for interest and handling charges to banks,—and that it would place the whole road-building program under a special commissioner who would operate independent of the Congress, and who could, if he wished, place roads only in "politically satisfactory" states.

ADEQUATE ALUMINUM:
The Senate Small Business Committee, of which I am a member, recommended to the Office of Defense Mobilization that 150 million pounds of aluminum scheduled for stockpiling the second half of 1955 be diverted to independent aluminum users.

The Florida Aluminum Industry, which turns out the largest percentage in the nation of finished aluminum products, would be particularly hard-hit by the Department of Defense stockpiling program. Defense requirements created a serious shortage of this vital metal, making it paritically impossible for small manufacturers of aluminum products to obtain supplies to maintain even minimum production.

CITRUS AND LIVESTOCK RESEARCH: Florida will benefit from the Department of Agriculture appropriations bill regress.

Increased funds will be available for expanded research on the menace of spreading decline in citrus trees, and screw worm infestation of livestock, which should shorten the research period from four to two years. Additional money is also provided for more port of entry inspectors to combat plant pests entering through Florida ports.

Good Readers Honored

PAHOKEE — Thirteen boys and girls of Mrs. Cleo Douthit's Pahokee third grade were rewarded for reading 30 library books each this semester. Mrs. Douthit last Friday took them on a tour of the OBSERVER office, to see Miss Nina Briggs' shell collection, and then to the Douthit home for a party.

BY SCHATZI

This week I acquired my own version of the rhyme about "I never saw a purple cow, I never hope to see one. . . ."

It is: "I never saw a khaki cloud, I hadn't thought to see one" (you finish it).

But see a khaki cloud I did. Certainly I've heard about the pink clouds people float on, and the black clouds hanging over other people's heads.

But the other day when I looked in Boss No. 2's bedroom and saw a khaki-colored cloud, I took to the hibiscus.

About an hour later I sidled into the house again and edged through the living room bedroomwards. I closed my eyes. . . . put my head around the doorway, opened my eyes. . . . and the cloud was still there.

It was hanging over the boss's bed, and seemed fastened to the ceiling.

I got a good grip on myself, and flew with skidding paws around the corner and on toward the kitchen, barking wildly at Boss No. 1 to see if I could get some reassurance that the cloud wasn't there.

But Boss No. 1 just looked at me and smiled enigmatically—a kind of shrug of the shoulders or well-what-did-you-expect smile.

Discovering Boss No. 2 on the sofa, engrossed in a book entitled "Gruesome Stories for Growing Editors," I snarled menacingly to get her attention. I made such a fuss she finally growled back and then rose from the sofa and followed me to her bedroom.

How can you possibly account for this I barked.

Oh don't be ridiculous said the boss, pointing to a wastebasket full of discarded bug-spray cans, I have gotten very tired of breathing this stuff but I hate battling bugs in bed.

Arresting this flow of alliterations, the boss gave the cloud a yank and it descended over us.

Which is how I discovered that khaki-colored clouds can sometimes be army surplus mosquito netting.

for this wide-open beauty

It's the new kind of hardtop—

The 4-Door Riviera!

THERE seems to be some confusion about what a hardtop really is, and we'd like to set the matter straight.

A hardtop is a car that looks like a Convertible with the top up—but has a solid steel roof overhead—and no center posts in the side window areas.

Up until just recently, it could be built in volume only with two doors—not more—because it would take wholly new structural principles to hinge another set of doors without floor-to-roof center posts.

But Buick came up with those new structural principles and is now building—in volume—hardtops with four doors.

You see one pictured here. It's the 4-Door Riviera. And it's taking the country by storm . . .

Because here, at long last, is an automobile with the sleek and sporty styling of a true hardtop—but with separate doors for rear-seat passengers, plus the added room of a full-size Buick Sedan.

On top of that, this beauty is all Buick—with the buoyant ride of Buick's all-coil springing—the wallowing might of Buick's record-high V8 power—the whip-quick

getaway and sizable gas savings of Buick's spectacular Variable Pitch Dynaflo.*

And it's available in Buick's two lowest-priced Series—the budget-tagged 188-hp SPECIAL, and the high-performance 236-hp CENTURY, illustrated here.

Come visit us for a first-hand meeting with the 4-Door Riviera—and see how quickly and how easily the last word in automobiles can be yours.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

NEGOTIATIONS FOR SALE of stock of Radio Station WSWN were completed Friday in the office of Mrs. Mary Foy, manager, when new owner E. D. Rivers, jr., of Atlanta, completed purchase. L-r in picture are H. E. Ulmer, auditor for Rivers broadcasting operations; Rivers; Dr. R. G. Nelson, of Tampa. Mrs. Foy, and Dr. R. L. Pipes, of Belle Glade, all of whose stock was purchased. Other stockholders were Dr. S. C. Harvard, Brooksville, and C. S. Clemans, station chief engineer. Rivers, upon completion

of sale, said he doesn't plan any major changes except a few programwise at the station, that Mrs. Foy will remain as station director. "This was a planned step," he said regarding the purchase of the station, "because I want to move to Florida eventually, and think the Glades area, with which I am generally familiar, has a great future." Owner of other stations in Georgia and Tennessee, Rivers said WSWN would continue its policy of community cooperation.

2nd Court Held For Girl Scouts

BELLE GLADE—The second annual Girl Scout court of awards held Friday included recognition for both Brownies and Scouts during ceremonies at Municipal Park.

Each troop present gave a short skit. That of the second grade troop was an hilarious dramatization of the giving of polio shots, with a tremendous needle on a 12-inch syringe. This was followed by the fourth grade Brownies' Arthur Godfrey talent scout program, all so good that "Arthur" decided to use all three acts.

The fifth grade intermediates presented a skit showing how obeying the Girl Scout Laws could lead to a better troop meeting. Awards were given to the 6th grade girls by Mrs. R. J. Allen, jr. in the absence of their leader, Mrs. C. R. Lee. The girls, working toward their first class rank, had earned cooking badges.

Mrs. White gave second class rank awards to the fifth grade girls. Mrs. Bertha LaChance introduced her fourth grade Brownies, who having completed the requirements for the tenderfoot rank in intermediate scouts "flew up" from Brownies into the higher program field. The 2nd grade Brownies, led by Mrs. Mulberg, Mrs. Hodges, and Mrs. Royal were given

membership pendants signifying a year's membership in a competitive awards in the Brownie program.

During the program, Mrs. Allen introduced each of the leaders, as well as Vice Chairman Dorothy Averill, and Secretary-Treasurer Dorothy Tucker of the Central Committee. She introduced Dr. R. J. Allen, jr., member of the Central Committee and chairman of the finance sub-committee of the steering committee which is working toward formation of an Area Council. Dr. Allen spoke briefly on the benefits to be derived from membership in the Area Council, and pointed out that both the girls and the committee would benefit from the enlarged program.
